William K. Reilly, Administrator
U.S. Environmental Protection Agency
401 M Street, S.W.
Washington, D.C. 20460

Dear Mr. Reilly:

This is to request the U.S. Environmental Protection Agency look expeditiously into the validity of the claim made by the Ethyl Corporation that its HiTEC 3000 additive reduces nitrogen oxide emissions and fuel volatility.

Our interest in this is finding economical alternatives that equally work toward reducing mobile source emissions during this critical period of developing SIPs to deal with the ozone nonattainment issue.

Sincerely,

Hisham M. Saaid

Hisham M. Saaid
